Happy Holidays and Happy New Year from Everyone at HHRA!

Dear HHRA supporters,

Thank you all for your support this past year! Over 2022 we have made significant progress in our many research and communications efforts. The Heartland Study has now enrolled almost 400 mother-infant pairs and has also begun enrolling fathers into the study. In the coming months we plan to expand the Heartland study to begin enrolling mothers at sites in Wisconsin and Iowa. In 2022 we also attended and presented at two important public health conferences, the Iowa Public Health Association conference and the Nation wide American Public Health Association conference in Boston. At both conferences we were one of the only organizations to highlight the intersections between agricultural issues and public health. See our team pictures and highlights below!

We have big plans heading into 2023 and would appreciate your continued support! When you donate you can choose to support our research, communications/education, the Heartland Stories Radio Podcast, or all of the above.

Please consider making a donation and following HHRA on social media!

Sign up for Heartland Stories Radio Email Highlights

Our team at the Heartland Stories Radio and Podcast works hard to bring together diverse voices to tell the important stories in food, farming, and public health innovation. We now have over 100 episodes and want to continue growing our audience. We hope you all consider subscribing to our HSR email blasts, where we will send biweekly emails

highlighting interviews with top experts, pioneers, innovators, and changemakers in agriculture, food, and public health.

WE COULDN'T DO IT WITHOUT YOU!

We're working hard to provide scientifically-grounded answers to questions about pesticide exposure and public health. Want to help support our science? A \$100 donation pays for the lab costs to test one urine sample for glyphosate, while \$2,000 covers the cost of enrolling a new mother-infant pair in The Heartland Study.

Any amount helps, click here to support our work.
